General Information:

With this Thruxton from the Jürgen Schnaller Series, not only Triumph enthusiasts will get their moneys worth. First of all, the Thruxton has an engine whose torque curve is good and therefore the cafe racer offers riding fun. The transition from tank and seat to chassis is expertly solved. Jürgen Schnaller, who also likes to work with the pseudonym Jorge Jamon, knows a thing or two about classic motorbike design. The finishing touches are provided by high-quality components. These include in particular forged PVM wheels, a Speed Triple fork, Wilbers shock absorbers, Wave brake discs, Motogadget motscope pro instrument panel. European vehicle documents with all approvals are available, so that the new owner can also ride this unique piece legally.
