General Information:

The Formichino E - 125 is extremely rare, with only 47 units ever built. The Formichino E was designed to conquer the American and Australian markets. In the end, this did not work out and that is why this model is now a very rare rarity, of which perhaps only a handful have survived. With a top speed of 80 km/h and a fuel consumption of 2.5 l per 100 km, and a 4-speed transmission, there were only minor differences between it and the normal Formichino. The high degree of originality makes the Formichino E an interesting collectors item that reflects the short history of Rumi in all its facets.
