General Information:

After Rumi had achieved several successes in France in 24-hour races, the special model Bol D or was launched on the markets. The few examples were primarily exported to England and France. The colour gold was a natural choice, as a gold trophy was also won in France. With a top speed of around 130 km/h, it was one of the fastest scooters of its time. Our model is equipped with the typical details such as Z-handlebars and a 140 km/h speedometer. More important, of course, are the two carburettors that supply the higher-compression engine with sufficient fuel to really get the Ant moving.
