700 Meteor silver shotgun

First Registration:
1955

Frame Number:
T722XX

Mileage:

KW (HP) ccm:
29(40) 700 ccm

Price:
on request

General Information:

In 2010, the Royal Enfield silver shotgun was presented by the german motor press as a single piece.
The silver shotgun based on the Royal Enfield Meteor 700.
This single piece silver shotgun was built by the designer Eckkehard Homann.
1,650 man-hours were spent building this unique Royal Enfield. Or a whole year without holidays at 8 working hours daily.
First, the engine was completely overhauled and modified. There were classic tuning measures, polishing the intake ports, crankshaft, connecting rods performed. Of course, the crankshaft was fine balanced. The engine has since made about 50 hp. With the four-speed gearbox, a top speed of almost 190 km / h is possible.
The chassis has also been modified. In front is an internally ventilated double duplex drum brake with a diameter of 250 mm and a pushed short rocker. Rear is a full hubs drum brake installed. 18 inch rims front and rear. Wheelbase 1,488 mm and seat height 795 mm with a tank capacity of 28 liters. The
