General Information:

After more than 24 years, Bimota has launched its first completely in-house developed model onto the market. The 500cc two-stroke machine caused quite a stir, as other manufacturers had long since withdrawn from the development of two-stroke engines. Promap, with Valerie Lecoeur, continued Bimotas work, modifying the Vdue s lubrication system and designing an indirect injection system. The clutch and gearbox were also modified. A modernised dashboard makes our VDue a two-stroke that is just waiting to be ridden. We have French vehicle documents.
