First Registration:
1933

Frame Number:

Mileage:

KW (HP) ccm:
34(46)981 ccm

Price:
on request

General Information:

The SS100 is an excellent example. First of all, it is an offer for discerning motorcycle collectors. The engine number, chassis number and gearbox number correspond to the works record card, or to put it simply, the Brough has matching numbers. The engine is of particular importance, because this SS100 was still delivered with a JAP engine as standard. Our SS100 has the original JTO/Z engine installed. In general, the Brough is in excellent optical and technical condition and, of course, roadworthy. German vehicle registration documents are available.
