Mileage:

KW (HP) ccm:

**-- (--)
600 ccm**

Price:

26.800 EUR VAT not separate identificationable cooperation with EBERHARD THIESEN Automobile Raritäten since 1972.

General Information:

This three-wheeled vehicle, which offered space for two people, was presented for the first time at the "Leipziger Messe" in 1929. These motor-driven tricycles were to serve as a means of transport for wines for 50 years.

Equipped with a single-cylinder aggregate of the company J.A.P. with a capacity of 600 ccm - which was optionally also available with 500 ccm - this vehicle offered a powerful drive and even had a reverse gear.

Krauseco started the production of tricycles in 1926. The model series "K2" as well as the model series "k3" were based on a central tube frame.

Our vehicle is in a detailed condition, which was achieved by the original restoration in many years of work.

The Krauseco load tricycle K2/650 is offered in cooperation with EBERHARD THIESEN Automobile Raritäten since 1972.
