**MD2 2 380cc**

First Registration:

**1912**

Frame Number:

**170XX**

Mileage:

KW (HP) ccm:

**1,8(2,5)380 ccm**

Price:

**on request**

General Information:

Peugeot developed motorbike production at the turn of the century. At that time, there were a large number of bicycle manufacturers who started their motorbike production primarily as manufacturers. Peugeot designed its own engines as early as 1906 and supplied Norton, for example. Our MD 2 was produced in 1911 and 1912 with 380cc engines. The beautiful Peugeot weighed around 55 kg and was said to reach a top speed of 50 km/h.
