General Information:

Those who deal with vintage motorcycles intensively have usually learned after initial difficulties that it is good to know the experts who are familiar with the subject. When it comes to Rumi, we have been working with an expert for many years who not only knows his stuff, but also loves his Rumi vehicles. We are happy when he supplies us with a wide variety of Rumi models. This 125 Bicarburatore Super Sport was fully restored by him. With its dual carburettors and cast iron cylinders, this racer not only sounds fast, it is fast.
