General Information:

The BMW R 100 S was built between 1976 and 1978. With 11,762 units produced, the R 100 S was able to build on the success of its predecessor, the R 90 S. Our R 100 S has matching numbers and is among the first 3,000 vehicles built, which is why it has 65 hp. In recent years, the R 100 S was part of a motorcycle collection and requires a fresh inspection and new tires before it can be put back into service.
