General Information:

Moto-Witt was the importer of the Laverda brand in Germany in the early 1980s. With a limited production run of around 50 vehicles, they built an SFC version. We are offering this Laverda, bearing the same serial number, in excellent condition. Typical modifications to the SFC included the fairing, footrest system, and Marzocchi front fork. The Laverda was part of a collection and can be restored to working order upon the customers request. German vehicle documents are available.
