General Information:

Victoria was one of the oldest manufacturers of motorcycles and was based in Nuremberg. The company operated from 1886 to 1958. Victoria launched the KR 1 onto the market, which was the most advanced motorcycle of its time. Originally, BMW engines were fitted. When developing the KR 2, the company relied on Martin Stolle's new engine design. Our KR 2 is in a partially unrestored condition, which gives it a special charm.
