General Information:

A significant proportion of the Ducati 250 GT and Monza production was exported to the USA in the 1960s. Around 1,430 GT models were sold to the USA between 1962 and 1966. According to the records available to us, 167 units were produced for the European market in 1967. The low production figures make our 250 Monza a real rarity. Added to this is the faithful restoration, which means that the future classic car enthusiast can say: ?Back to the 60s?
